

## ELMIRA COLLEGE

# Quick Facts

### LOCATION:

- Elmira, in the Finger Lakes Region of Upstate New York
- City of 35,000

### ENROLLMENT:

- 1,200 Students
- Thirty-five states and thirty-one foreign countries represented

### FACULTY:

- 98% have earned the Ph.D. or higher degree required to teach at the undergraduate level
- 12:1 student-faculty ratio
- No classes taught by graduate teaching assistants

### HISTORY:

- Founded in 1855
- Private, coeducational, liberal arts college

### AVERAGE CLASS SIZE

- 16 students per class
- 90% have twenty-five or fewer students
- 35% have fewer than twelve students

### CAMPUS

- Fifty-five historic acres
- The Mark Twain Study
- A major athletic facility
- Eight College buildings listed on the National Register of Historic Places

## VISUALIZATION OF LATENT BLOODSTAINS COURSE

June 4-8, 2012

**Paul Erwin Kish**  
Forensic Consultant & Assoc.

**Martin Eversdijk**  
Loci Forensic Products  
Nieuw Vennep, the Netherlands

Conducted at  
**ELMIRA COLLEGE**  
One Park Place  
Elmira, New York 14901

## Visualization of Latent Bloodstains Course

This course will provide the participants with first-hand knowledge of how and when to employ searching and enhancement techniques to locate and visualize latent bloodstains. Students will acquire first-hand knowledge of the benefits as well as the limitations of commonly utilized chemical searching and enhancement techniques.

The course is divided into both lecture and laboratory sessions. The theoretical and fundamental principles related to the chemical searching and enhancement techniques for latent bloodstains will be illustrated in the lecture segments. These principles will then be reinforced in the laboratory segments where students will have an opportunity to utilize the methods discussed in lecture.

Upon completion of this course, the participants will have acquired a basic understanding of how and when to utilize blood searching and enhancing chemicals to assist in their investigation where latent blood is suspected.

This course is recommended for investigators, crime scene technicians, and forensic scientists who routinely search for blood at crime scenes as well as on articles of physical evidence.

# COURSE TOPICS TO INCLUDE

- Searching vs. Enhancing Techniques
- Blood Searching Techniques:
  - Luminol
  - “NEW” Lumiscene
  - Fluorescein
- Blood Enhancement Techniques:
  - Amido Black
  - Acid Fuchsin (Hungarian Red)
  - Aqueous Leucocrystal Violent (ALVC)
  - Titanium Dioxide
  - Suspension Dyes
  - Acid Dyes
- On-scene Preparation Methods
- Photographic Documentation
- Introduction to IR Photography
- Methods for Applying Blood Searching Chemicals e.g.:
  - Pump sprayers vs Compressors
- Health and Safety Issues
- Reporting of Findings
- “False Positive” Reactions / Environmental Factors
- Case Examples

The course will be conducted Monday through Friday, 8:00 a.m. – 5:00 p.m., at Elmira College, Elmira, New York.

Upon receipt of your registration and payment, you will receive a confirmation letter including a list of items to bring to the course. In the event there are insufficient registrations, this course will be cancelled.

Each student is responsible for making his or her own hotel reservation. There is a group rate of \$125.00 per night plus tax at:

Holiday Inn Express  
Horseheads, New York  
607-739-3681

# INSTRUCTORS

**Paul Erwin Kish** is a Forensic Consultant and Bloodstain Pattern Analyst. Mr. Kish has been consulted on homicide cases in 30 states, the District of Columbia, as well as, in Australia, New Zealand, Canada, Europe, and United Kingdom.

His lecturing has taken him throughout the United States, as well as to Canada, England, The Netherlands, and Sweden. Mr. Kish is a Fellow in the American Academy of Forensic Science and he is a co-author of “Principles of Bloodstain Pattern Analysis Theory and Practice.”

**Martin Eversdijk** is a Forensic Professional for the forensic department of the Amsterdam-Amstelland Regional Police, The Netherlands. He is a member of the Centre of Excellence of Europol for his knowledge in luminol investigations.

From 2000-2007 he was a staff member/trainer at the National Police Academy, Department for Training Scene of Crime Officers in The Netherlands. He has lectured extensively on the topic of blood chemical searching and enhancement techniques and conducted hundreds of luminol investigations.
